

PARENTS COMMITMENT

- We are more than just a football club, we care so we ask for parents to have a commitment along the way too.
- The football season is from September - May with pre-season and some tournaments friendly in the summer months.
- We ask for parent/carers to commit to this before the season starts, it is extremely hard to help a 'player' or 'team' develop when many players are away or can't make training.
- We ask parents/carers to commit to come and support the team when you can within the season, all our home games we make as local as we can.
- We ask parents to commit that they will ensure their child is at training and on time.
- We ask that parents ensure players are at matches on time for team talk and warm up to eliminate disturbance to the rest of the team.
- We ask that parents support the whole team on match days.
- We ask that you support the whole club, if a team reaches a final or competition play off we ask that you come along to support the team/club.
- If you have plans to be away on a scheduled match day please give us at least 28 days notice this is a league rule and prevents the club getting a fine.
- Every player must have a parent/carers up to date phone number. If you are away and someone else has responsibility for your child during that time we need the details for that person.

Now your child is part of a football team it's not drop in sessions so training is just as important as match days. Players will only play to their best potential if they train in the same way.
